Bucharest, Romania

Technical Skills

I enjoy the **React/Next.js + NodeJS** classic combo paired with any other service or tool that will get the job done.

Work Experience

■**Full-stack Developer @ Archbee**   Aug 2025 - present
  • Contributed to the VS Code extension for creating and previewing Archbee documentation with integrated linting, snippets and AI assistance.
  • Developed features like RSS Feed for published documentation and Scalar API Blocks for the Editor.

■**Full-stack Developer @ deadlock.sh**   Sept 2024 - Aug 2024
  • Developed an interactive Camera → AI Edit → Print system that allowed users to take selfies, edit them using AI on a touch screen display and print them.
  • Built a courses and certification web app, with real-time examination for "*INSTITUTUL DE STUDII FINANCIARE*".

■**Full-stack Developer @ Sessions.us**   Oct 2022 - Sept 2024
  Sessions the web app:
  • Worked on the webinars module, including the various features it provided.
  • Redesigned the UI of some parts of the application: Agenda Templates, Custom Branding, Session Settings.
  • Developed the UI and back-end for new features like:
    • Custom domain name (CNAME)
    • Create/use settings templates for various scenarios
    • Personal e-mail syncing for the default e-mails sent through the app
    • Create/present offers during a webinar for audience
  Event/Webinar landing page:
  • Developed a dynamic landing page for webinars module.

■**Front-End Developer @ BOBNET**   Oct 2021 - Oct 2022
  UncleBob e-commerce project:
  • Crafted the UI for the checkout section, enhancing the established process for registered users while introducing a new flow for guest users.
  • Introduced a system for applying discount vouchers to orders.
  • Created components and logic to facilitate scheduled deliveries.
  • Focused on enhancing app performance and speed.
  UncleBob Warehouse - Dashboard internal project:
  • Continuously managing the legacy Warehouse project.
  • Created a brand-new Warehouse Admin from the ground up.
  • Designed and implemented an advanced filtering system to refine back-end data.
  BOB Concierge Device:
  • Improved and changed some UI elements for a better UX.

Legal Advisor @ S.C.P.E.J. Ochian Doru si Neneci Alexandru   2018 - 2021
